

RESCUE RANGER

Delivering Hope, One Ride at a Time

Rescue Ranger Education Media Unit

The Rescue Ranger Education Unit bringing learning to the most remote communities. Education remains one of the most powerful drivers of self-reliance, social progress, and sustainable development. Yet, delivering quality educational experiences to remote and underserved areas continues to be a significant challenge. The design includes many new ideas and equipment. The unit has been based on the successful and durable **Rescue Ranger** sidecar platform.

Rescue Ranger has developed the **Rescue Ranger Education Unit** as a mobile unit that can educate in hard-to-reach locations.

Empowering Communities Through Knowledge

Whether used for public health campaigns, agricultural training, literacy programs, or civic education, the **Rescue Ranger Education Unit** empowers communities through access to information, inspiration, and opportunity no matter how far off the grid they may be.

Education and Mobile Cinema Learning Hub

Education remains one of the most powerful drivers of self-reliance, social progress, and sustainable development. Yet, delivering quality educational experiences to remote and underserved areas continues to be a significant challenge.

This all-in-one solution multimedia enables educators, outreach teams, and program leaders to deliver lectures, training sessions and deliver impactful learning experiences anywhere public awareness campaigns, or entertainment to remote communities with ease.

To bridge this gap the **Rescue Ranger Education Unit** is a mobile, multimedia classroom designed to deliver impactful learning experiences, capable of presenting to audiences of 250 people or more, and it bringing learning to the most remote communities, in the most hard-to-reach locations.

Equipment and Fetchers

The **Rescue Ranger Education Unit** functions as a fully mobile cinema and education centre, capable of presenting to large audiences. It comes equipped with:

- Media player Video Projector
- Public address system
- Wireless microphone
- Full-size projection screen
- Compact generator for reliable off-grid power
- Custom-Built for impact with foam packaging and bags

Ample onboard storage allows for the transport of printed materials, handouts, and educational tools. The unit can also be enhanced with optional audio-visual aids, depending on the needs of the program or location.

Each Rescue Ranger Education Unit is custom-built to meet the unique specifications of the customer ensuring maximum relevance, functionality, and effectiveness in the field.
